

The Forest Recreation Ground Entrances

Entrance improvements

We would like to restore and improve the entrances to The Forest Recreation Ground to ensure that they are safe, welcoming and accessible for all users.

These are the proposals:

1. Mansfield Road entrance

- Resurface the roads so that they are level with footpaths and are more pedestrian friendly.

- Introduce railings and features to create an attractive and welcoming entrance.

- Introduce welcome signs showing where things are within the park and telling visitors about forthcoming events.

- Provide better seating

- Provide colourful planting displays

2. Mount Hooton Road entrance (Opposite Bentinck Road)

- Repair the walls and railings

- Improve the paving inside and outside the entrance

- Introduce welcome signs so that visitors know where things are within the park and have information on forthcoming events.

3. Forest Road East entrances

- Clean the stone piers.

- Replace ugly barriers with historic bollards

- Replace railings to the low walls

- Introduce welcome signs so that visitors know where things are within the park and have information on forthcoming events.
