

The Forest Recreation Ground Buildings

These are the proposals:

1. Toilet block

- Demolish the toilet block but leave the concrete base for Goose Fair toilets.

- Provide new toilets within the Pavilion.

2. The Pavilion

- Provide toilets to replace the toilet block (which is to be demolished)

- Provide a hall for community events

- Improve the café facilities and outdoor terrace

- Provide better changing facilities.

3. FMAP changing rooms

- These will remain at the Park. It is a long term goal to replace these with a better building but this will not be done as part of this project.

4. Bowls pavilion

- Remove the burnt out parts.
- Improve the end nearest to the bowling greens.

5. Depot

- Demolish the existing structure and replace within The Dell

6. The Lodge

- Repair external decoration to restore the Lodge to its former glory.
- Use the building as a small office or park management centre

Park buildings

We would like to restore and improve the buildings within The Forest Recreation Ground to make sure that they are attractive and provide a range of uses which will benefit the users of the Park.
